### **PROJECT OBJECTIVES**

#### **Topic: Real-Time river water quality monitoring and control system**

The objectives as,

- River water quality can be monitored by the web application.
- Can be able to know if there are any dust particles present in the water.
- The PH level of the water can be monitored.
- Water temperature can be monitored. Alerting the authorities if the water quality is not good so that they can go
- and announce the localities not to drink that water.
